Castle Acquisitions 2018-2019

January 14th - March 31st, 2020

Castle acquisitions 2018-2019 is an exhibition of the most interesting among over 100 items bought in the last two years for the collection of the Royal Castle in Warsaw. We show the most valuable and interesting ones, many of which have already found their place in our permanent exhibition.

The aim of acquiring so many priceless works of art is to enrich the royal residence with items of a unique class. We invite you to walk around the castle interiors and find recently purchased exhibits in the rooms on the first floor.

Before heading to the Castle Tour you can get a special map at the Information Point.

Tickets for this exhibition are the tickets for [the Castle Tour](#).
